5. **Climate Change**

Councillor Commander reported that the Parish Council had been successful in securing a £15k grant from Electricity North West to carry out a feasibility study to consider ground source heat pumps in Calder Vale village. The Parish Council will work with a company called Prospous who have been working on a similar project in Chipping village. A flyer drop on Vale Terrace, Victoria Terrace and Long Row found 3 houses (one from each row) willing to have a survey done in their home. These will take place on 23<sup>rd</sup> November. The £15k will be deposited into the Parish Council bank account and the spend from it should be monitored separately. It was agreed that a sub committee to progress this work be set up consisting of Councillor Commander (as Chair), Councillor Ibison & Kate Gilmartin (Community energy investment lead for Lancashire County Council). Sammy Grey from Wyre has also been approached to join the Committee. Discussions took place around how this would be promoted around the area; Councillor Commander will send some wording to Clerk to include on the website to advertise what is happening/about the grant etc. To consider hosting an evening event in Calder Vale Club or Calder Vale village hall to generate interest and answer any public questions. Also to include a link to the Chipping project. The Government have a greener energy initiative and if successful in a bid; this could mean up to 50% off installation cost to any customer.
